

### Description

Requirement: The SUT allows a practitioner to query and then select a patient's local medical record to perform subsequent actions such as view or update information or initiate a query for information to an IIS.

The user selects Lance Gaige Duncan, Jr as the patient. See [HIMSS IIP v11.0 Job Aid](#) for patient DOB, Today (day of test) the patient is 0 years, approx. 2 months old.

### Pre-condition

Lance Gaige Duncan Jr. is registered in the SUT. [Please use the HIMSS IIP Test Plan v11.0 Job Aid located here](#) for all steps related to Lance Gaige Duncan.

Daniela Jennifer Wyatt is the practitioner.

### Post-Condition

Lance Gaige Duncan Jr. is selected by a user as the active patient in the SUT.

Go to step 3.2.1

### Test Objectives

That the SUT can select a patient from a list of active patients.

### Evaluation Criteria

This is a non-evaluated test step that must be performed to support other associated steps.

The following patient is selected as the active patient:

| Patient                                              |                                                                                                                                 |
|------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Name                                                 | Lance Gaige Duncan Jr.                                                                                                          |
| Medical record number                                | 1111                                                                                                                            |
| Age and date of birth (reference only, not entered): | DOB: <a href="#">See HIMSS IIP Test Plan v11.0 Job Aid</a><br>Today (day of test) the patient is 0 years, approx. 2 months old. |
| VFC Eligible                                         | VFC eligible - American Indian/Alaskan Native                                                                                   |
