

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Introduction

This workflow crosswalk provides the System Under Test (SUT) with guidance regarding the test workflow. The test is divided into capabilities (e.g., Care Provision and Documentation, Query, Response, and Reconciliation, and Transmission and Acknowledgement) to clearly identify the intent of specific activities. Any patient use case may address multiple capabilities therefore, the crosswalk shows the patient workflow categorized by capability. This modular test plan allows flexible validation of individual capabilities or combined workflows, ensuring both isolated and end-to-end workflow testing can be accomplished.

How to use: Identify the patient's name being tested in the far-left patient column and move to the next column on the right to identify the step under a specific capability. If a step has an associated step under a different capability, it will be visible in the same row as you move left to right. Use the last column labeled “Next step to move to” in each row to guide you to the next step that needs to be performed after completing all steps in that row. Continue following this process throughout the crosswalk. This allows you to perform each test step as you would in a simulated clinic workflow.

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
Lance Gaige Duncan, Jr.	3.1.0	Select patient					3.1.1
Lance Gaige Duncan, Jr.	3.1.1	Select patient					3.2.1
Lance Gaige Duncan, Jr.	3.2.1	Enter patient-provided immunization-related information					5.3.1
Lance Gaige Duncan, Jr.					5.3.1	Transmit newly documented historical immunization records to the IIS	5.3.2

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
Lance Gaige Duncan, Jr.					5.3.2	Receive and process acknowledgement message	3.3.1
Lance Gaige Duncan, Jr.	3.3.1	Display patient's updated immunization history					3.4.1
Lance Gaige Duncan, Jr.	3.4.1	Display patient's updated immunization local system (non-IIS) forecast					3.5.1
Lance Gaige Duncan, Jr.	3.5.1	Enter vaccination order					3.6.1
Lance Gaige Duncan, Jr.	3.6.1	Record vaccine administration data using 2-D bar code scan found on vaccine vials and syringes in put the vaccine-specific information					3.7.1
Lance Gaige Duncan, Jr.	3.7.1	Record vaccine administration data with manual data entry to input the vaccine-specific information			5.1.1	Transmit newly recorded vaccine VXU to the IIS	5.1.2
Lance Gaige Duncan, Jr.					5.1.2	Receive and process acknowledgement message from IIS indicating fatal errors and the message was rejected. (AR) (E)	5.1.1 (2)

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
Lance Gaige Duncan, Jr.					5.1.1 (2)	Transmit newly recorded vaccine VXU to the IIS	5.1.3
Lance Gaige Duncan, Jr.					5.1.3	Receive and process acknowledgement message from IIS indicating an error related to IIS mapping NDC code. (AE) (E)	5.1.1 (3)
Lance Gaige Duncan, Jr.					5.1.1 (3)	Transmit newly recorded vaccine VXU to the IIS	5.1.4
Lance Gaige Duncan, Jr.					5.1.4	Receive and process acknowledgement message from IIS indicating warning regarding administration sites. (AE) (W)	5.1.1 (4)
Lance Gaige Duncan, Jr.					5.1.1 (4)	Transmit newly recorded vaccine VXU to the IIS	5.1.5
Lance Gaige Duncan, Jr.					5.1.5	Receive and process acknowledgement message from IIS indicating multiple warnings. (AE) (W)	5.1.1 (5)
Lance Gaige Duncan, Jr.					5.1.1 (5)	Transmit newly recorded vaccine VXU to the IIS	5.1.6
Lance Gaige Duncan, Jr.					5.1.6	Receive and process acknowledgement message from IIS indicating informational warning regarding county of residence. (AA) (I)	5.1.1 (6)
Lance Gaige Duncan, Jr.					5.1.1 (6)	Transmit newly recorded vaccine VXU to the IIS	5.1.7

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
Lance Gaige Duncan, Jr.					5.1.7	Receive and process acknowledgement message from IIS indicating no errors. (AA)	5.2.1
Lance Gaige Duncan, Jr.					5.2.1	Update vaccine record to correct previously submitted data sent to IIS	5.2.2
Lance Gaige Duncan, Jr.					5.2.2	Transmit update VXU immunization to IIS	5.2.3
Lance Gaige Duncan, Jr.					5.2.3	Receive acknowledgement message from IIS in response to updated vaccination record	3.8.1
Lance Gaige Duncan, Jr.	3.8.1	Produce a printable version of a patient's immunization record					3.9.1
Lance Gaige Duncan, Jr.	3.9.1	Display a patient's local immunization forecast after adding vaccine administration events to the immunization history					3.10.1
Alexandria Jacqueline Montoya	3.10.1	Select patient for expired vaccine					3.10.2
Alexandria Jacqueline Montoya	3.10.2	Order vaccine					3.10.3

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
Alexandria Jacqueline Montoya	3.10.3	Make vaccine dose expiration date prominently available to the user					3.11.1
Alexandria Jacqueline Montoya	3.11.1	Inform user of patient-specific vaccine product eligibility status			5.6.1	Transmit protection indicator to IIS	5.6.2
Alexandria Jacqueline Montoya					5.6.2	Receive acknowledgement message from IIS in response to submitted immunization message	3.12.1
Selma Nadia McKay	3.12.1	Select patient for record adverse events					3.12.2
Selma Nadia McKay	3.12.2	Record the vaccination that is related to the adverse event					3.13.1
Selma Nadia McKay	3.13.1	Inform users ordering vaccines containing antigens previously identified as potential causative agents of an adverse event					3.13.2
Selma Nadia McKay	3.13.2	Inform users administering vaccines containing antigens previously identified as potential causative agents of an adverse event					4.1.1

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
Selma Nadia McKay			4.1.1	Display local forecast			4.2.1
Selma Nadia McKay			4.2.1	Requests (query) a patient's evaluated immunization history and vaccine forecast from an IIS			4.2.2
Selma Nadia McKay			4.2.2	Receive and process a patient's evaluated immunization history and vaccine forecast from an IIS			4.3.1
Selma Nadia McKay			4.3.1	Reconcile and import IIS history and forecast response			4.4.1
Selma Nadia McKay			4.4.1	Display SUT vaccination history including the user-reconciled IIS-provided history			4.5.1
Selma Nadia McKay			4.5.1	Re-evaluate patient's immunization forecast after reconciling IIS-provided vaccine history			4.6.1
James John Smith			4.6.1	Select Patient to Receive and process outcomes from IIS noting too many matches			4.6.2

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
James John Smith			4.6.2	Requests (query) a patient's evaluated immunization history and vaccine forecast from an IIS			4.6.3
James John Smith			4.6.3	Receive and process outcomes from IIS noting too many clients match the criteria sent (query-response)			4.6.4
Franklin Mayhew Nesbitt			4.6.4	Select patient for Receive and process outcomes from IIS noting non match outcomes			4.6.5
Franklin Mayhew Nesbitt			4.6.5	Requests (query) a patient's evaluated immunization history and vaccine forecast from an IIS			4.6.6
Franklin Mayhew Nesbitt			4.6.6	Receive and process outcomes from IIS noting no clients match the criteria sent within the query from the SUT			3.14.1
Deborah Charlotte McKay	3.14.1	Select Patient for refused vaccine					3.14.2

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
Deborah Charlotte McKay	3.14.2	Enter order for Hepatitis A vaccine and Hepatitis B Vaccine					3.14.3
Deborah Charlotte McKay	3.14.3	Record Hepatitis A vaccine administration			5.4.1	Transmit administration VXU of Hep A vaccine documented prematurely in error which should be a refusal. (Later deleted)	5.4.2
Deborah Charlotte McKay					5.4.2	Receive acknowledgement message from IIS in response to submitted immunization record	5.4.3
Deborah Charlotte McKay					5.4.3	Transmit delete VXU for newly administered Hep A vaccine documented prematurely	5.4.4
Deborah Charlotte McKay					5.4.4	Receive acknowledgement message from IIS as response to submitted immunization delete record	3.14.4
Deborah Charlotte McKay	3.14.4	Record vaccine administration refusal and Hepatitis B vaccine administration					5.5.1
Deborah Charlotte McKay					5.5.1	Transmit refusal VXU of individual Hep A vaccination and transmit administration of Hep B	5.5.2

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
Deborah Charlotte McKay					5.5.2	Receive acknowledgement message from IIS as response to submitted immunization refusal record	3.15.1
N/A	3.15.1 Attestation	Produce Cohort Report Requirements					7.1.1
Finley Ira Nash	7.1.1	Accommodate updates to vaccine code sets (CVX, NDC, VIS) when released from CDC					7.1.2
Finley Ira Nash	7.1.2	Enter vaccine inventory for newly developed vaccine					7.1.3
Finley Ira Nash	7.1.3	Order new vaccine for patient administration					7.1.4
Finley Ira Nash	7.1.4	Record vaccine administration with new product and vaccine eligibility code			7.1.5	Transmit VXU for new vaccine with new codes	7.1.6
Finley Ira Nash					7.1.6	Receive acknowledgement message from IIS as response to submitted immunization with new codes	7.2.1

IIP Test Plan Essentials Module: Workflow Crosswalk for Capabilities 3, 4, 5, 7, and 9

Patient	Capability: Care Provision and Documentation		Capability: Query, Response, and Reconciliation		Capability: Transmission and Acknowledgement		Next step to move to
N/A	7.2.1 Attestation	Immunization schedule is updated regularly to reflect changes in ACIP immunization recommendations					9.1.1
Yuiko Kami Nakano	9.1.1 Attestation	Alert user when data entered indicates patient born in the future					9.1.2
Yuiko Kami Nakano	9.1.2 Attestation	Alert user when a date of birth is entered which indicates patient is more than 150 years of age					9.1.3
Yuiko Kami Nakano	9.1.3	Alert user when data entered indicates patient received a vaccine before DOB
